

Writing An Essay in 5 Easy Steps

1. Brainstorm

Jot down all ideas and associations about the topic, in phrases and lists.
Ask questions and research to find out more information.

2. Organize and outline

Select the most important ideas from your brainstorm.
Identify how you will prove or explain them.

3. Write

Tie all of your ideas together into sentences and paragraphs.
Make sure each idea transitions smoothly to the next.

4. Revise

Evaluate and edit your work.
Make sure your ideas are fully supported and easy to understand.

5. Copy-edit

Correct any grammar and spelling mistakes.

Work Step By Step
Each progressive step takes less time.

If each step is performed thoroughly, the next steps will be much quicker and easier!

The Logic of Writing

Writing doesn't have to be mysterious.

All it takes is forethought, organization, and technical skill!
